## Publishing your doctorate: Realities and processes

### Beyond Doctorates Downunder: Maximising the impact of your doctorate from Australia and New Zealand

Rolls, Annemarie

**Abstract:** Publishing your thesis may be something you had in mind from its inception, it may have occurred to you along the way or even post-completion as you reflected on your research and the results. This chapter provides you with information and advice as you consider publishing your thesis. It will ideally give you enough

detail to decide whether you will pursue this path, a sense of the reality of doing so, and some direction in starting the process. In addition, three useful texts are provided as recommended reading.
