## Abstract

By Dr. D. J. G. Ives *Monographs for Teachers No. 3, Royal Institute of Chemistry.*  
*Pp. 57. Price 6s.*

This short monograph is one of the initial issues in a series designed to give general guidance on specific subjects to science teachers responsible for the preparation of candidates for Advanced Level G.C.E. examinations, and other similar tests. The Council of the Royal Institute of Chemistry has rightly felt such guidance to be helpful, particularly in respect of certain topics where difficulties arise in clear presentation in terms of fundamental principles.
