### **Abstract:**

This essay explores Martin Luther King's use of the Exodus narrative in his Montgomery bus boycott speeches, superimposing a religious drama on the campaign, King explained protesters present circumstances, urged their united action, and provided an overwhelming conviction that they would succeed. King's speeches thus played a key role in the boycott's development, for they connected events in the protesters' experience with a salient cultural tradition that made those events meaningful. This suggests that narrative can play a potent role in the development of social movements. An essential point of convergence around which they gain coherence and power.
