## Mabberley's plant-book: a portable dictionary of plants, their classifications and uses.

Author(s) : [Mabberley, D. J.](#)

Editors : [Mabberley, D. J.](#)

Book : [Mabberley's plant-book: a portable dictionary of plants, their classifications and uses](#)  
2008 No.Ed.3 pp.xviii + 1021 pp. ref.many

Abstract : Mabberley's *Plant-book* is internationally accepted as an essential text for anyone studying, growing or writing about plants. With over 24,000 comprehensive dictionary provides information on every family and genus (

plant (including gymnosperms), plus ferns and clubmosses). The book contains taxonomic details and uses with English and other vernacular names. In this each entry has been updated to take into consideration the most recent literature the great advances in molecular analyses, and over 1650 additional new entries ecologically and economically important genera of mosses) have been added that Mabberley's *Plant-book* continues to rank among the most practical and botanical texts available.
