Abstract : This is the English edition of a book which was first published in the beginning of 1937 and which has already been reviewed [see *V. B.7.* 505]. The increasing literature is here given up to the end of 1937, and the book includes unpublished results of experimental work in connexion with preparations. The book should be invaluable to anyone interested in the clinical application of the pharmacology of the antimony compounds, but has unfortunately, no subje
