Specialty cut flowers. The production of annuals, perennials, bulbs and woody plants for fresh and dried cut flowers.

Author(s) : [Armitage, A. M.](#)

Book : [Specialty cut flowers. The production of annuals, perennials, bulbs and woody plants for fresh and dried cut flowers.](#) 1993 pp.384 pp. ref.many

Abstract : This book brings together existing and recent information (including hitherto unpublished research results) on specialty cut flower crops. Introduction and chapters discuss the market for specialty cut flowers, their production in the tropics and elsewhere and general postharvest techniques (including drying and preservation).

main body of the book is divided into 4 sections on annual, perennial, bulbo species. Each of these sections provides detailed information on specific sp 80 genera) and cultivars, including propagation and growing methods, envii factors, yields, greenhouse forcing, harvesting stage, postharvest handling and diseases. Additional useful species are listed. The appendices include a harvesting stage criteria by genus.
