Title	Bowett's law of international institutions
Edition	6th ed.
Author(s)	Sands, Philippe ; Klein, Pierre
Publication	London : Sweet and Maxwell, 2009. - 619 p.
Subject category	Commerce, Economics, Social Science
Abstract	<p>Bowett's Law of International Institutions is the leading introduction to this complex, important and growing area of international law, with increasing significance for developments at the national level. Covering all the major global, regional and judicial institutions and all international organisations that regulate aspects of development and providing an introductory overview of the law of international organisations, including international courts and tribunals as a whole. The book offers a basic framework, insights into some of the more essential issues, and indications of where to find more detail. Bowett's is essential reading for students of international law and international relations and will also be of considerable interest to lawyers practising in the area.</p>
ISBN	9780421964907 (This book at Amazon) (print version, paperback) 0421964901 (This book at Amazon) (print version, paperback)
Other editions	3rd ed. (1975) 5th ed. (2001)
