The struggle between the desert and the sown. Rise and fall of agriculture in the Levant.

Author(s) : REIFENBERG, A.

Book : The struggle between the desert and the sown. Rise and fall of agriculture in the Levant
1955 pp.109 pp. ref.bibl. 106

Abstract : The fruit of a lifetime of study and research, the book traces the influence of deforestation, of soil erosion and of bad administration through the remedies these suggest. It describes the age-old struggle between the desert and the sown " founded on agricultural, archaeological and historical material re

detailed surveys.

Its six chapters are devoted to a detailed examination and analysis of the to geology of the Levant, its climate, the destruction of vegetation, soil erosior installations, their origin and decay and, finally, the rise and decline of agricu Levant from prehistoric times to the Turkish period. In his introduction, W. C summarizes the importance of such a study for the " education of peoples (life " and writes, " if civilization is to win this race against famine, it must be c determination and support of the whole population. Farmers cannot do it all account. It is a challenge that must be accepted by the people concerned as Each chapter is followed by an extensive bibliography. There are 72 excelle Hebrew edition of this book was published in 1950 for the Bialik Institute, Jer
