 **Gibberellins.**

Foreign Title : Giberelliny.

Author(s) : [Muromtsev, G. S.](#) ; [Agnistikova, V. N.](#)

Book : [Giberelliny](#). 1984 pp.208pp. ref.922

Abstract : In this book, gibberellins in general and especially those of the higher plants are discussed in relation to chemical structure, methods of determination and identification, mode of action, physiological activity, microbial synthesis and practical applications. Concepts about the adaptive significance of the formation of gibberellins in *Fusarium moniliforme* are discussed. A hypothesis about regulation of plant growth by different gibberellins is suggested, which explains the presence of their large amounts in plants.
