Authors: [Russell, Stuart J.](#)
[Norvig, Peter.](#)

Keywords: Trí tu nhân t o, tin h c

Issue Date: 2016

Publisher: Malaysia; Pearson Education Limited,

Abstract:

Artificial Intelligence (AI) is a big field, and this is a big book. We have tried to explore the full breadth of the field, which encompasses logic, probability, and continuous mathematics; perception, reasoning, learning, and action; and everything from microelectronic devices to robotic planetary explorers. The book is also big because we go into some depth.
