Veterinary helminthology.

Author(s) : [Dunn, A. M.](#)

Author Affiliation : Dep. Vet. Path., Vet. Sch., Bearsden, Glasgow G61 1QH, UK.

Book : [Veterinary helminthology](#). 1978 No.2nd edition pp.xi + 323pp. ref.76 fig.,

Abstract : The first edition of this book was welcomed enthusiastically by readers and has been found in practice to be extremely useful to teachers and students for the last nine years. In bringing the volume up to date the author has added only a few new chapters. This edition follows the same plan as before and would prove as useful as its predecessor. The price of this new edition is some 3 1/2 times that of the old edition. It is to be hoped that this will not deter the present generation of students, for whom the book is most useful.
