Book : [Dynamics of collective conflict: riots at the Bathurst 'Bike Races'](#). 1989 pp.

Abstract : Bathurst is a motor cycle event in New South Wales, Australia, which has been held since the 1930s. During the 1980s it became a front page news issue as a result of a series of annual riots. The book explains what really happened, and its significance. The eruptions in the 1980s were not entirely unprecedented but were an intense and traditional form of protest. The disturbances were essentially anti-police demonstrations by young working class males from the motorbike culture. For the bike boys

confrontations were basically ritualistic, exciting and enjoyable annual event
effect of these mini-revolutions was not to topple authority. Rather, the tight
social control led to firmer supervision and regulation of leisure and social s
throughout New South Wales.
