Title

Introduction to quantum mechanics : a time-dependent perspective

Author(s)

[Tannor, David J](#)

Publication

Sausalito, CA : University Science Books, 2007. - 662 p.

Subject code

[530.145](#)

Subject category

General Theoretical Physics

Abstract

"Introduction to Quantum Mechanics" covers quantum mechanics from a time-dependent perspective in a unified way from beginning to end. Intended for upper-level undergraduate and graduate courses this text will change the way people think about and teach quantum mechanics in chemistry and physics departments.
