## Abstract

Picasso's Guernica is one of the most iconic artworks of the twentieth century. Consequently, it is also one of the most speculated and analyzed works of art. This work is analyzed through four specific time periods from its creation in 1937 to the present. Drawing from the numerous writers who have already picked up the baton, this work seeks to explain Guernica's importance and significance in the modern world. The research presented here are works of art and literature that are inspired by Guernica in some way.
