behavior of this special group of people. For this study, literature related to the study were made to have a better understanding and examine the findings of earlier relevant studies. Semi-structured as a data collection tool to collect the relevant data from the semi-structured interview was also conducted with the librarians and professional services available in the libraries. Various services are being provided in the libraries under study. The various information sources such as Braille, Audio Books and DAISY Books which are also known as Digital Talking Book are important sources of information but their use differ from each other according to the availability and affordability. Much needs to be done to improve the satisfaction of this special group of people and fulfill their information needs.
