Tissue Cultures and Mycoplasmas.

Author(s) : [HAYFLICK, L.](#)Journal article : [Texas Reports on Biology and Medicine](#) 1965 Vol.23 No.1, Supplement 1, p.68-72, 68 refs.

Abstract : A detailed methodology is presented by which mycoplasmas can be detected as contaminants in tissue cultures or other materials. A compendium of potential sources of error in interpreting results is included. The possible sources of this type of contamination are reviewed and means by which cultures can be decontaminated are considered.

Record Number : 19652705376
