Scouting for Boys: A Handbook for Instruction in Good Citizenship

Robert Baden-Powell

Oxford University Press UK (2005)

Abstract

Scouting for Boys is the original blueprint and 'self-instructor' of the Boy Scout Movement. An all-time bestseller, it is both a handbook and a philosophy for a way of living that replaces self with service, puts country before individual, and duty above all. As well as practical instructions on how to light fires and stalk men and animals, it includes sections on chivalry, self-discipline, self-improvement and citizenship. This new edition reveals its maverick complexity and explores its contradictions about sexuality, the environment, and the empire.
