Textbook of Pharmacology.

Author(s) : [Bowman, W. C.](#) ; [Rand, M. J.](#)

Book : [Textbook of Pharmacology](#). 1980 No.2nd ed. pp.1912 pp.

Abstract : This textbook includes a chapter on the chemotherapy of protozoa (pp. 36.1-36.27) in which, together with background information on life-cycle, pathogenicity etc., details are given of the treatment and chemoprophylaxis of the treatment of toxoplasmosis, trichomoniasis, giardiasis, trypanosomiasis (American), leishmaniasis and amoebiasis. The various drugs for the treatment of these diseases are discussed individually, with details of chemical structure, therapeutic efficiency and toxicity.<new para>ADDITIONAL ABSTRACT:<new para>This textbook includes a chapter on the chemotherapy of infections with helminths and parasites and arthropods (pp. 37.1-37.30). The epidemiology, pathogenicity, etc. of the various

helminths affecting man are discussed and this is followed by an account of activity and toxicity of anthelmintic drugs used against schistosomes, other tapeworms, filariids and other nematodes.
