Second Advisor

Dr. Fragano Ledgister

Third Advisor

Dr. Eddy Von Mueller

Abstract

This study examines post-World War II “anime” and manga b effects and changes in Japanese mindsets resulting from the V by Osamu Tezuka and later artists influenced by his works. Th Japanese political culture elements, through particular plotline manga and anime themes carrying hidden messages repeated effects on Japan, citing Tezuka’s influence, in the 1945-65 and post-apocalyptic, science fiction, and fantasy genres. Case stu qualitatively assess data for historical evidence of Tezuka’s inf genres, from scholarly studies and reviews of manga, comics, Evidence of Tezuka-inspired themes, such as hope out of end phoenix analogy) and man’s destructive obsession with techn (dependent variables), were analyzed from a comparativist, hi influenced by atomic bomb-related themes. The researcher e fascination with technology and why many anime show status absorbed trauma from the bomb, was invaded by foreigners, overhaul. Post-war, the economy grew rapidly, but Japan mus conformity. The Japanese are aware of the US role in their du Japan felt discomfort as a junior-partner in the 1950s-60s. The defense and foreign policy as it rebuilt itself. Tezuka’s work sh arrangement and technology’s societal role. Conclusions sugg from Tezuka’s works that the bomb’s devastation changed Jap powerful themes referencing these events in postwar science futuristic post-apocalyptic genres, relating to Japanese history from ethical technology perspectives, relations between natio policy (independent variables). Japan must look to the future, from the ashes. Balancing Mother Nature, technology’s place rebuilding relate to the 2011 nuclear crisis and survival. Japan recovering from a disastrous early 1900s earthquake; if Japan certainly it could again. Just as manga and anime unite fans gl Comics Code restrictions were lifted), mankind assists others disagreements; we can universally transcend nation. Tezuka’s humanity to avoid a dark future depends on our ability to sett nature for its simple beauty in our lives.
