The Unfinished Revolution: How a New Generation is Reshaping Family, Work, and Gender in America

Kathleen Gerson

Oup Usa (2010)

Abstract

The vast changes in family life—the rise of single, same-sex, and two-paycheck parents—have often been blamed for declining morality and unhappy children. Drawing upon pioneering research with the children of the gender revolution, Kathleen Gerson reveals that it is not a lack of family values, but rigid social and economic forces that make it difficult to live out those values. *The Unfinished Revolution* makes clear recommendations for a new flexibility at work and at home that benefits families, encourages a thriving economy, and helps women and men integrate love and work.
