Abstract

All fans, scholars, and critics have their favorite films. Some see the prequel trilogies as equally, some embrace the special editions, and others deny the existence of anything other than the original versions of the first three films released. As scholars and fans say, all of the live-action movies are Star Wars movie mythology and bear the words "Star Wars" in their titles. However, the two trilogies of the Star Wars saga conflict. The prequel trilogy subverts the themes of the original Star Wars trilogy by subverting the themes of freedom, hope, and the idea of having good character, faith, and humanity that the original trilogy advocated. The prequel Star Wars movies fail to be as effective as the earlier, original trilogy, advocating the themes of predestination and cynicism and the destruction of the life of a specific group of people, the Jedi.
