RELATIONSHIP OF BLOOD PRESSURE, SERUM CHOLESTEROL, SMOKING HABIT, RELATIVE WEIGHT AND ECG ABNORMALITIES TO INCIDENCE OF MAJOR CORONARY EVENTS: FINAL REPORT OF THE POOLING PROJECT

THE POOLING PROJECT RESEARCH GROUP*

TABLE OF CONTENTS

HISTORICAL BACKGROUND	202
OBJECTIVE	203
METHODS	203
Populations	203
Baseline Risk Factors and Their Measurements	204
Blood pressure	204
Serum cholesterol	204
Height and weight	204
Smoking habits	204
Electrocardiograms	204
Endpoints	205
Definitions and Statistical Methods	205
Person-years of experience	205
Age at risk	205
Risk and incidence	205
RESULTS	205
Data Contributed by the Studies	207
Baseline Characteristics of the Study Populations	208
Relationship of Baseline Characteristics to Incidence of First Major Coronary Events	215
Systolic blood pressure	215
Diastolic blood pressure	218
Serum cholesterol	225
Smoking	234
Relative weight	238
Electrocardiographic findings	243
Multiple factors	249
Use of the 3-Factor Logistic Findings to Predict Risk of a First Major Coronary Event	256
DISCUSSION	256
ACKNOWLEDGEMENTS	267
REFERENCES	268
APPENDICES	270
1. Desirable Weight Table	270
2. Statistical Methodology	270
3. Distribution of Values at Entry by Age: Systolic Blood Pressure	272
4. Distribution of Values at Entry by Age: Diastolic Blood Pressure	277
5. Distribution of Values at Entry by Age: Serum Cholesterol	281
6. Distribution of Men at Entry by Age: Smoking Pattern	286
7. Distribution of Values at Entry by Age: Relative Weight	290
8. Distribution of Electrocardiographic Abnormalities Recorded at Entry, by Age	295
9. Additional Multiple Logistic Analyses	304

This is the final report of the national cooperative Pooling Project. It presents the pooled results of five longitudinal investigations on the incidence of coronary heart disease in middle-aged white men (the Albany civil servant, Chicago Peoples Gas Co., Chicago Western Electric Co., Framingham community and Tecumseh community

Abbreviations—CHD—Coronary heart disease; MI—myocardia infarction; PYE—person-years of experience; SIR—standardized incidence ratio.
